

Pocket Knives

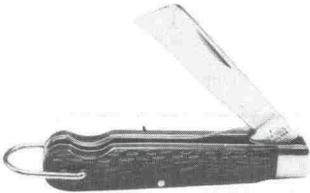

These heavy-duty knives all have blades of the finest cutlery steel, tough and carefully tempered to hold their edge. Most of these knives feature strongly-riveted construction with large shackles, steel and brass bodies with special, super-tough plastic handles that won't crack or chip. Handles are textured for better gripping. All screwdriver-tip blades also have a cutting edge; certain blades lock open automatically for more efficient use.

2-Blade Pocket Knives

Standard spearpoint blade 2 1/2" long (6.4 cm) and screwdriver-tip blade 2 1/2" long (6.4 cm). Screwdriver blade locks open. Blades available in standard carbon steel or stainless steel.
