

Business Alignment Workshop

Maintaining a competitive edge is at the top of every business leader's mind. Early engagement with a trusted partner who understands your core business challenges is the key to success. EESCO is that indispensable services and solutions technology partner.

In a Business Alignment Workshop, we work with you to identify your biggest challenges and opportunities, quantify their impact, and brainstorm ideas. The goal of this one-to-two hour discussion is to walk away with a prioritized list of issues.

Our consultants will develop potential solutions for your consideration and will work with you to define a path forward.

Business Alignment Workshop

OUR INVESTMENT IN YOU!

EESCO makes a substantial investment by including these resources to make this workshop productive for you:

- EESCO leadership
- Local Account Manager
- Solution Consultants
- Subject Matter Experts

WHO SHOULD ATTEND?

- Department heads
- Executive leadership
- Business leaders
- Key stakeholders

Where We Can Help

We focus on your priorities related to safety, reliability, quality, productivity, projects, corporate initiatives and capital investments.

DIGITAL TRANSFORMATION

- Make better, faster decisions by unlocking the value of data from disparate systems, processes, and people.

QUALITY MANAGEMENT

- Improve first-pass quality, optimize raw material consumption, and minimize product waste.

UTILITIES

- Improve margins by reducing consumption of water, air, gas, electricity, and steam.
- Reduce and comply with emission standards.

MANUFACTURING OPERATIONS

- Improve quality and maintain consistency in processes.
- Address production bottlenecks and procedural automation.

THROUGHPUT

- Reduce downtime
- Improve OEE
- Optimize yield

MAINTENANCE OPERATIONS

- Reduce maintenance costs by moving from reactive to a predictive model.

SAFETY

- Machine, Process, Personnel, and Environmental safety.
